**business_card_10-up.pdf**    rev. 110608

Art is cut at cropmarks as shown by **red dieline**. Art should extend to the **1p green line** for bleed. Text and logos should be kept within the **0p9 blue safe zone**.

When you submit your artwork, **dieline**, **bleed lines**, **safe zone lines** and instruction layer should be removed, leaving only the black cropmarks for positioning.
